What are your plans after graduation?

I plan to attend EMT classes/courses out of Campbell County. I also will continue my path in my love for photography with News Letter Journal, and on my own. I just want to help people and make money.

When you look back on high school in later years, what will you remember most?

I'll look back and appreciate all the groups I was in throughout high school: Sources of Strength, FBLA, FFA, student council, volleyball, basketball, golf, wrestling, AAU programs, and track and field. I'll probably remember high school as a simple time that seemed to drag on but we now realize went too fast.

Hopefully I find myself in a steady career path, content with myself, thriving and loving life. I hope to have travelled wherever my heart may take me. I hope to stay true to myself. (It would also be nice to have lots of money.)

Who has given you the best advice during your school years? What did they say?

Throughout my high school journey, many have given me advice. However, in my senior year of trying to figure out life, a very impactful piece of advice was given to me by Coach Teigen Marchant: "You create the way that others treat you." I believe that advice can apply to anyone and will carry me far.
